*Plans require service commitment and are subject to early termination fees. Does not include federal, state, county, or city-mandated taxes, surcharges, or mandatory regulatory fees. Some restrictions apply.

Wheat State Technologies is a local communications provider serving customers in rural areas of the state with broadband Internet access and traditional telephone service, powered by a cutting-edge fiber-optic network. This network is the backbone that connects you to the town next door and the rest of the world.

WST Fiber is the Ultimate Home Improvement

Because Wheat State Technologies invested in building a fiber network for your community, your home or business has access to the advanced communications services that only fiber supports.
